Storm systems moving across the Northern Midwest and another stronger storm moving across the Southern States brought widespread snow to the region. Bands of snow affected most of Northern Illinois and Indiana. The first band of snow spread into the area early Friday morning with heaviest accumulations of 1-2 inches south of I-88. Additional bands of snow developed later Friday in Kenosha and Lake Counties and spread southward across Cook County before ending later Friday evening and overnight. These bands of snow brought some 1-3 inch amounts in Lake and Cook County. South of I-80 amounts of snow were mainly in the 2-4 inch range. Temperatures were mainly in the middle to upper 20s. Meteorologist: Tom Piazza, CCM
