A storm system moving across the Midwest spread a dry snow from Iowa into the Great Lakes. The heaviest snowfall occurred from central Iowa into the southern third of Wisconsin. In Illinois the snowfall was enhanced near Lake Michigan. Snowfall amounts ranged from 2-4 inches in most areas, less than 2 inches near and south of I-80. Higher amounts of 3-5 inches near Lake Michigan, mainly north of I-90. Temperatures were in the 20s and there was some minor drifting. Meteorologist: Tom Piazza, CCM
