A Low pressure system moving across Iowa and Illinois spread a mixture of snow, rain and drizzle into Northern Illinois Friday. With temperatures holding in the middle 30s, most of the snow melted as it fell. Amounts were mostly a Trace to less than 1/2 inch. After the precipitation ended, skies cleared Friday night and in many areas temperatures fell into the 20s by Saturday morning which caused freeze-back on some paved surfaces, especially in the west and north suburbs. Meteorologist: Tom Piazza, CCM

All details contained herein are made subject to the inherent limitations of the science of Meteorology. The data is based upon reports received from the National Weather Service and Cooperative Observers. Start and Stop times are taken from the nearest National Weather Service Observation Reporting Station. The data has been evaluated by our staff of professional meteorologists and determined to be accurate and representative of these locations. We do reserve the right to make changes to this report upon receipt of further meteorological data if we deem it necessary.
