An upper air system spread light snow into Northern Illinois and Northwest Indiana Wednesday afternoon and evening. The snow amounts ranged mostly a Trace to a couple tenths of an inch. There was light rain and drizzle mixed in at times. Temperatures were in the low to mid 30s during the precipitation but fell into the 20s overnight. Winds were light. METEOROLOGIST: TOM PIAZZA, CCM

All details contained herein are made subject to the inherent limitations of the science of Meteorology. The data is based upon reports received from the National Weather Service and Cooperative Observers. Start and Stop times are taken from the nearest National Weather Service Observation Reporting Station. The data has been evaluated by our staff of professional meteorologists and determined to be accurate and representative of these locations. We do reserve the right to make changes to this report upon receipt of further meteorological data if we deem it necessary.
