A strong arctic cold front pushed through the region late Wednesday into Thursday morning bringing the coldest air of the season to the Midwest and great Lakes. It caused snow showers with some of them on the heavy side bringing several inches of snow, especially in the northern Illinois counties and Southern Wisconsin. Lesser amounts fell areas south of I-88. Temperatures fell from the lower 30s into the teens. Strong winds caused blowing and drifting of the snow that continued into Thursday. METEOROLOGIST: TOM PIAZZA, CCM

All details contained herein are made subject to the inherent limitations of the science of Meteorology. The data is based upon reports received from the National Weather Service and Cooperative Observers. Start and Stop times are taken from the nearest National Weather Service Observation Reporting Station. The data has been evaluated by our staff of professional meteorologists and determined to be accurate and representative of these locations.
