An upper air system moving southeast through the Great Lakes brought snow showers and flurries to Northeast Illinois and Northwest Indiana later Saturday into Sunday morning. (THIS IS PART ONE OF THE PERIOD OF SNOW SHOWERS THAT CAME THROUGH THE REGION. THERE WILL BE A SECOND EVENT COVERING THE SNOW SHOWERS AND FLURRIES THAT CONTINUED SUNDAY INTO MONDAY MORNING.) Accumulations were a Trace to several tenths of an inch in a few areas causing a light covering of snow. Winds were brisk blowing the snow around. Temperatures were from the upper teens to the middle 20s. METEOROLOGIST: TOM PIAZZA, CCM

All details contained herein are made subject to the inherent limitations of the science of Meteorology. The data is based upon reports received from the National Weather Service and Cooperative Observers. Start and Stop times are taken from the nearest National Weather Service Observation Reporting Station. The data has been evaluated by our staff of professional meteorologists and determined to be accurate and representative of these locations. We do reserve the right to make changes to this report upon receipt of further meteorological data if we deem it necessary.
